

**SHERWOOD**  
*Resorts and Hotels*

## **OUR ENVIRONMENTAL POLICY**

Environment is a physical, biologic, social, economic and cultural surrounding in which living things maintain their relationships during their lives and interact with each other.

Environmental issues stem from human behaviour. Therefore, it is of great importance for human to behave properly when it comes to environment, act responsibly and be trained accordingly.

As SHERWOOD RESORTS & HOTELS we aim to show an approach to protect environment starting with our facility and to contribute in related studies.

As SHERWOOD RESORTS & HOTELS our target is to preserve and improve environment and provide a healthier and safer environment for future generations, humanity and a sustainable tourism movement.

Our team is aware of the fact that we can achieve a sustainable growth which is core of our activities only through sustainable environment and energy principles.

Our goals are; preserving environment and keeping environmental impacts under control by respecting all the environmental law and regulations so as to ensure continuity, periodically improving our environmental performance by reducing environmental impacts and setting our environmental aims and objectives periodically to meet the requirements of our environmental awareness, actualizing and reviewing them on a regular basis and bringing all the productive activities of consciousness into life through "An Operational Excellence in Business" so as to leave a clean and liveable environment for future generations.

## **WE PROMISE THAT**

We will hand down a clean and healthy environment to future generations, for whom we hold it in trust, We will exercise due diligence to minimize, recycle and reuse wastes arising from operation of facility, We will consistently improve and enhance our environment and energy performance,

We will guide our suppliers, who provide product and service for us in the field of environment and will strive to raise environmental awareness,

We will take all the environmental impacts into consideration during operation of facility and will preserve and enlarge green areas, live in harmony with nature, preserve air, water and natural resources,

We will meet our obligations in line with the environmental legislation; enhance our environmental management system in order that it can improve customer satisfaction and environmental performance,

We will reduce raw material consumption using appropriate technologies that will minimize environmental damage within the bounds of possibility and will protect natural resources,

We will enable integrity of health, safety and environment by reducing possible emergency risks within the framework of occupational health and safety rules,

We will encourage participation of our employees and customers by raising their awareness of environmental responsibilities,

**WE WILL HAND DOWN A LIVEABLE WORLD TO NEXT GENERATIONS FOR A SUSTAINABLE LIFE AND TOURISM.**
